

# Review of: Anime\_Score\_Learning

Creators: Dylan

# Quality of Work

- Score: 3
- The README file clearly states the purpose of the project, and I am truly curious to see what correlation they find.
  - I wish they had added examples of the attributes they are looking for or discussed how these will be measured.
- Selenium Scraper is explained
  - The raw code for this is available, however I appreciate that a clear explanation about what this tool does was available.
- The work is clear and easy to follow
  - I appreciate the comments stating the function of the code for quick analysis.

# Project Progress

- Score: 3
- A copy of the raw code is provided and clearly detail the command functions.
  - As previously stated, I appreciate the comments as it makes it easier to follow.
- There is a logbook detailing various sessions that they have scraped data from the site
  - Already over 52 entries, I hope they find the correlations they are looking for.

# Video

- Score: 0
- Will add review once the video is accessible.
